King Carlos, of Portugal, Emperor William and King Edward will soon meet in London with all their "suits." General Miles ought to be invited to come with his suite—of clothes.

Mark Hanna is now making speeches with a stiff knee and sore throat. When the people, in November, increase the Democratic representation in Congress, he will have added to his ailments a twisted neck.

Minister Wu, who has been ordered back to China from Washington by his Empress, may now have a better paying job but the notably bad temper of Tsi An makes the chances of a solid neck rather precarious.

Colombia is standing in her own light when it refuses to let the United States build the canal through that country unless paid a large sum of money. What that little blot on the map needs is someone to wake them up. And it seems to be up to Uncle Sam.

The death of a human being by his own hand always calls for a degree of sympathy. That one has found life so hard that he must voluntarily lay it down is a sad story, for the love of life is one of the most powerful of passions, says the Louisville Courier-Journal. But it would have been better if James Younger had been content to die without leaving as a legacy to mankind his views upon men and things. The economic ideas of a man who spent a quarter of a century in the penitentiary for murder, besides having numerous other crimes to his account, are not likely to be accepted as authoritative. Mr. Younger's bent in favor of socialism would be of somewhat greater importance if he had not while a free man carried communistic ideas to such an extreme. Not content with an indorsement of socialism, Mr. Younger proceeded to try to blot out the Most High from the universe. It is true that he qualifies his atheism by denying the existence of a personal God. What Mr. Younger means by a "personal God," although the expression is not uncommon, it would be hard for anybody to define so as to render it intelligible. Such a declaration, however, is often no more than a mask for absolute atheism, and Younger based his freedom from fear upon the belief that God is universal. He was evidently only afraid of a personal God. Younger rather improved on the etiquette so long prevalent among the men who die upon the scaffold, who have been much given to forgiving everybody and especially those upon whose testimony they were convicted. Younger did not forgive,

but he pitied the pardoning board who did not "stop to consider their wives or think of a man who knows how to love and appreciate a friend in truth." This seems to refer to the fact that he wanted a pardon in order that he might marry some misguided "lassie" to whom he refers in his farewell note. It is not by posthumous precept that such men as Younger can do a service to the world, by way of compensation for the evil they did during their lives. But to the mind capable of receiving instruction their example ought to be useful in teaching what to avoid. With a high order of courage, with a degree of energy and ability that would have insured success in honest courses. Younger and his brothers made themselves the enemies of the human race, and thereby wrecked lives that might have been honorable, and brought misery to themselves and others. Not in atheism nor in crime, but in profiting by the sad fate of James Younger, can the young men of a newer generation find the only instruction that can be extracted from the history of his wasted life.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. At Hall's.

You know What You Are Taking when you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No Cure, No pay. 50c.

## Eczema, Psoriasis, Salt Rheum, Tetter and Acne

Belong to that class of inflammatory and disfiguring skin eruptions that cause more genuine bodily discomfort and worry than all other known diseases. The impurities or sediments which collect in the system because of poor digestion, inactive kidneys and other organs of elimination are taken up by the blood, saturating the system with acid poisons and fluids that ooze out through the glands and pores of the skin, producing an indescribable itching and burning, and the yellow, watery discharge forms into crusts and sores or little brown and white scabs that drop off, leaving the skin tender and raw. The effect of the poison may cause the skin to crack and bleed, or give it a scaly, fishy appearance; again the eruptions may consist of innumerable blackheads and pimples or hard, red bumps upon the face. Purification of the blood is the only remedy for these vicious skin diseases. Washes and powders can only hide for a time the glaring blemishes. S. S. S. eradicates all poisonous accumulations, antitoxins the Uric and other acids, and restores the blood to its wonted purity, and stimulates and revitalizes the sluggish organs, and the impurities pass off through the natural channels and relieve the skin. S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no Arsenic, Potash or other harmful mineral.

Write us about your case and our physicians will advise without charge. We have a handsomely illustrated book on skin diseases, which will be sent free to all who wish it.

We believe the public will bear us out in the claim that one of our strongest points is that when we sell an article it is invariably as we represent it. Another point is that those who go everywhere else without finding what they want, come to us and secure it. This is because we keep our stock up to the requirements of the trade of this section, and those who patronize us, never need to look further.
